

Date	03 November 2022
Team ID	PNT2022TMID52932
Project Name	Project - <b>AI – Powered Nutrition Analyzer for Fitness Enthusiats</b>
Maximum Marks	4 Marks

## Project Structure

Create a Project folder that contains files as shown below

- Dataset folder contains the training and testing images for training our model.
- We are building a Flask Application that needs HTML pages stored in the templates folder and a python script app.py for serverside scripting
- we need the model which is saved and the saved model in this content is a nutrition.h5
- templates folder contains home.html, image.html, imageprediction.html pages.
- Statis folder had the css and js files which are necessary for styling the html page and for executing the actions.
- Uploads folder will have the uploaded images(which are already tested).
- Sample\_images will have the images which are used to test or upload.

- Training folder contains the trained model file.
